What the Jam Lab can do for You

- **CHOOSE YOUR RECIPE** - We have a recipe book for you to choose from...or we can create your signature recipe. So many possibilities...Beer or wine jelly, culinary vinegars, jams, marmalades, apple/pear butter, let's get creative.
- **THE DOCUMENTS** - We will supply you with a Certificate of Authentication that your product was produced under our roof in our State Regulated Commercial Kitchen. This is a satisfactory document for the Farmers Market Associations, as well as any Grocery Markets.
- **OUR PRACTICES** - We operate in the first Green Certified Kitchen in Santa Cruz County. We recycle all we can...from composting all cardboard...or returning all boxes for your reuse...to composting all byproduct from production. Ultimately we are here to reduce food waste as a whole...which is the #2 cause of global warming.
- **TRANSPARANCY** - We guarantee that your produce will be in your jars...**NO COMINGLING** with other farms...we weigh..measure...and assign lot numbers to guarantee solidarity.
- **MAXIMIZE PROFITS** - our pricing structure allows you to make a healthy profit...**TIMLIENESS**...our quick turnaround times will help you maximize profits.
- **MARKETING** - We have a simplified labeling program that we can supply labels at a very low cost. We will help promote your product through our Social Media platforms.
- **JARRED WITH LOVE** - Every jar is hand filled with love.
